"Love is the flower you got to let grow." This is a famous quote by John Lennon. Lennon was most famous for being the leader of the Beatles. Lennon was born September 10, 1940, in Liverpool, England. Lennon sadly died in 1980.

There are many interesting facts about John Lennon. Lennon sang for the Beatles in my opinion he was the best out of the four. Lennon also was the leader of the Beatles. Five years after Lennon left the Beatles he got shot and died. In those five years Lennon only made a couple songs. When Lennon was younger Lennon's mom got

hit by a car and died the next morning and the day she died was a few days before Lennon's eighteenth birthday.

These are some interesting facts about John Lennon.

John Lennon is most famous for being the leader of the Beatles. Lennon had a band before the Beatles called the Quarrymen that formed into the Beatles. They were pretty famous, but only in England the Quarrymen was never really famous in the U.S.A. Did you know the Beatles name came from the 1953 movie The Wild One. John's music will go on forever.

John Lennon was born in a weird time in the world. He didn't have the technology we have today, like the iPhone and big TVs and Apple Watches. When Lennon was six the electronic computer was invented and when Lennon was eleven the long-distance dialing in the U.S.A. was invented. Lennon would be proud if he could see what we have today.

There are many facts about John Lennon. Lennon was exactly forty years old when he died. You might be wondering how he died... he got shot by a disturbed fan. I know a fan!!! When Lennon was young he had a band called the Quarrymen. He also was the leader of the Quarrymen. These are a few facts about John Lennon.

what John Lennon was most famous for is being the leader of the Beatles. When Lennon was young he had a band called the Quarrymen, but they were only really famous in England at the time. The reason I picked John Lennon is I'm named after him and I love his songs. In my opinion I think his best song is I'm just sitting here watching the wheels go round and round.
