

# HARRISON'S HEROES

Dear Parents,

What a crazy few weeks we have had. I can't remember a year where we have had so many snow days in a row! I am glad the students were able to make it in this past Thursday and Friday to finish up some final assessments and watch the long awaited movie, Wonder. It was a great way to end the first half of the year.

We have many things planned for the second half of the year. On page two of this letter you will see a calendar that will take you through the end of the year. I will be adding things to this calendar as the semester progresses, but it will give you a good idea of what is coming up.

On Monday (1/22) students will be writing me a persuasive letter expressing who they would like to research and portray in our Wax Museum. Hopefully, you have had a chance to talk to your child about some ideas. Students will be given an outline later in the week they will use to begin their research.

Conferences will be taking place on February 8th. Please take a few minutes to fill out and return the conference note attached.

STEWART ELEMENTARY SCHOOL

## Valentine's Day Party

**Wednesday, February 14th 2:00-3:00**

For our Valentine's Day Party this year students are encouraged to create their own Valentine's Day Box/Container at home. Their creations can be made from a shoe box, empty gallon milk container, etc...Their name should be clearly marked on the container so students know whose box it is when delivering their Valentine's Day cards. Students can begin bringing in their boxes and Valentine's Day cards for classmates on Monday, February 12th. A class list is attached for students to use when addressing their Valentine's cards.

## NWEA Testing This Week

This week students will begin their middle of the year testing for NWEA in math and reading. This test is administered three times a year to monitor student growth. There are practice tests online for families to preview to see what these are like. If you are interested in previewing these tests or working through a couple of problems with you child visit <https://practice.mapnwea.org/#/practice-landing>.

After you login click on 3rd grade and either math or reading depending on what test you want to take.
